General Report Comments:

Document No: 1108649      Validation Date: 14 July 2020

Identification

Mineral Type: Natural Beryl

Variety: Emerald      Color Description: Green

Carat Weight: 1.81 cts      Shape: Rectangular

Measurements: 8.51 x 6.89 x 4.82 mm      Cutting Style: Emerald Cut

Comments:

Identification

Origin

Provenance: Colombia

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Colombia.

Origin

Enhancement

Standard: Clarity      Additional: None

Degree: Minor

Type: Modern

Stability Index: Very Good to Good

Comments: Emeralds are commonly clarity enhanced to reduce the visibility of fissures. Today, modern types of materials used to clarity enhance gemstones include various polymer-type resins, singly or in combination with other types of fillers.

Document No: 1107605      Validation Date: 12 March 2020

Identification

Mineral Type: Natural Beryl  
Variety: Emerald      Color Description: Green

Carat Weight: 2.01 cts      Shape: Rectangular  
Measurements: 8.43 x 6.35 x 5.76 mm      Cutting Style: Emerald Cut

Comments:

Origin

Origin  
Provenance: Colombia

Comments: Based on available geological information, it is the opinion of the Laboratory that the origin of this material would be classified as Colombia.

Enhancement

Enhancement  
Standard: Clarity      Additional: None  
Degree: Insignificant  
Type: Traditional  
Stability Index: Very Good to Good

Comments: This emerald contains fissures which at the time of testing were only partially filled. Traditional materials used to clarity enhance gemstones include various oils (such as Cedarwood oil), waxes (Paraffin), as well as others.
