Document No: 1132306 Validation Date: 13 June 2023

Identification
 Mineral Type: Natural Beryl Transparency: Transparent
 Variety: Emerald Color Description: Green

Carat Weight: 2.89 cts Shape: Square
 Measurements: 8.78 x 8.64 x 5.61 mm Cutting Style: Step Cut

Comments: Set in a white metal ring with two marquise and several old cut diamonds (identified at random). Unmounted for testing.

Identification

Origin
 Provenance: Colombia

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Colombia.

Origin

Enhancement
 Standard: Clarity enhancement: None Additional: None

Comments: This gemstone contains fissures which at the time of testing were not filled. Emeralds are commonly clarity enhanced to reduce the visibility of fissures.

American Gemological Laboratories
 America's first and most highly respected origin lab.

Founded in 1977,
 AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

AGL has the distinction of being the first laboratory in the United States to issue Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification-and-classification, gemstone treatments and provenance determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.
