Comments:

This diagram is an example and does not represent the actual polishing of the item described

Origin

Origin

Origin
 Provenance: Colombia

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Colombia.

Enhancement

Enhancement

Enhancement

Standard: Clarity Additional: None
 Degree: Minor
 Type: Traditional
 Stability Index: Very Good to Good

Comments: Emeralds are commonly clarity enhanced to reduce the visibility of fissures. Traditional materials used to clarity enhance gemstones include various oils (such as Cedarwood oil) and waxes (Paraffin), as well as others.
