#### General Report Comments:

Document No: 1093216 Validation Date: 28 June 2018

Identification

Mineral Type: Natural Zoisite  
Variety: Tanzanite

Color Description: Violet

Carat Weight: 11.40 cts  
Measurements: 13.84 x 11.89 x 8.63 mm

Shape: Rectangular  
Cutting Style: Emerald Cut

Comments:

#### American Gemological Laboratories™

America's first and most highly respected origin lab.

Founded in 1977,

AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

AGL has the distinction of being the first laboratory in the United States to issue

Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification-and-classification, gemstone treatments and provenance determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.

Origin  
Provenance: Tanzania

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Tanzania.

Enhancement

Standard: See comments Additional: Clarity enhancement: None

Stability Index: Color Stability: Excellent

Comments: The color of tanzanite is commonly the result of a relatively low temperature heating process.
