Document No: 1133336      Validation Date: 11 August 2023

Identification

Mineral Type: Natural Beryl      Transparency: Transparent  
 Variety: Emerald      Color Description: Green

Carat Weight: Not Determined      Shape: Marquise  
 Measurements: Approx. 13.9 x 7.23 x 5.26 mm      Cutting Style: Modified Brilliant Cut

Comments: Set in a white and yellow metal ring with several round and baguette diamonds (identified at random).

Identification

Origin

Provenance: Colombia

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Colombia.

Origin

Enhancement

Standard: Clarity      Additional: None  
 Degree: Minor  
 Type: Traditional  
 Stability Index: Very Good to Good

Comments: Emeralds are commonly clarity enhanced to reduce the visibility of fissures. Traditional materials used to clarity enhance gemstones include various oils (such as Cedarwood oil) and waxes (Paraffin), as well as others.
