Color:	E-F
Make (cut):	Very Good

Report Conducted By The
American Jewelry Institute, LLC
01/28/2025

*The information contained in this report represents the summary of the earnest and considered opinion of the American Jewelry Institute, LLC, with regard to the existing characteristics of the submitted gemstone and/or jewelry. At the time of the examination, the characteristics listed are those of the gemstone as determined by the use of appropriate gemological equipment and measuring devices. The price if stated on the report is based on the estimated suggested retail price as described in the statements section of this report. Common gem treatments are assumed unless otherwise noted. Origins of particular gem varieties as well as the origins of color have not been determined unless otherwise noted. Please read the attached statements and certifications for clarification.

Description Thirty five transparent gemstones
 Weight 196.229 ct
 Measurements ... From 9.44 x 6.83 x 5.54 to 20.11 x 15.20 x 9.45 mm
 Shape Octagonal
 Identification Natural AQUAMARINES
 Colour Blue
 Comment: No indications of any treatment

Fluorescence: None
 Aquamarine is commonly heated to improve the colour.
 Colour authenticity may not always be determinable.
 Total item weight 111.690 grams.
 These gemstones have been tested before mounting.

Bellerophon® Gemlab

    

AUTHENTICITY

This document represents Bellerophon's professional opinion, based on state-of-the-art techniques and instruments at the time of examination, describing the authenticity of the item(s). This document also describes the quality characteristics of the gemstone(s), based on its gemmological properties and internal features and discloses any treatments found at the time of examination.

I. Method of analysis, restrictions

Bellerophon shall carry out the analysis according to its state-of-the-art methods at the time of order, including quasi non-destructive methods such as Laser Ablation (LA ICD) testing unless explicitly excluded by the client. Unless the client informs Bellerophon that an item submitted has already been tested before, it will be considered a new submission. It is possible that a later re-examination of the gemstone(s) may lead to different results, should the applicable scientific standards for the examination change.

II. Scope of analysis, restrictions

The geographical origin of a gemstone cannot be ascertained, as the opinion is based mainly on comparative analysis of internal features and relevant chemical and physical characteristics. Items for the detection of gemstone treatments, which are in constant evolution and may be mentioned in the report or not. Bellerophon makes no warranty whatsoever regarding the actual origin of any gemstone(s). Any remarks concerning the presence or absence of any treatment type or method are solely the expression of the findings made by Bellerophon.

III. Warranty

Bellerophon guarantees careful contract performance within the scope of analysis and its limits, according to state-of-the-art testing methods and gemmological science. In the occurrence of a warranty claim, Bellerophon is not liable for damages incurred by client or third parties, be it direct, indirect, consequential or punitive, material or immaterial, based on contract, statute, tort or otherwise. Other warranties, expressed or implied, are expressly omitted.

Salavetti

King of color.

Mare's centerpiece, the Maglia suite, features more than 230 carats of emerald cut no heat aquamarine and more than 5 carats of round brilliant and baguette cut natural diamonds set in 18k white gold.

COLLEZIONE MARE

Salavetti proudly presents the Mare collection, a tribute to the boundless beauty of the sea and sky. At its heart lies aquamarine, Latin for "water of the sea," with a crisp, clean blue hue—an unmistakable hallmark of superior quality.

This collection begins with an extraordinary discovery in Tanambé, Madagascar, a coastal paradise renowned for its crystal clear waters. More than 8,000 rough carats of unheated, natural aquamarine were sourced, each gem meticulously handpicked for its unparalleled clarity and serene blue tone.

From mine to masterpiece, Salavetti directs every step of the journey, ensuring that only untreated, entirely natural gems grace the Mare collection. The time-honored craftsmanship and innovative design transform these rare stones into breathtaking jewelry.

Celebrating nature's unmatched artistry, the Mare collection embodies a connection to the Earth's natural majesty. Each piece conveys the calm of the sea and the infinite promise of the sky, bringing peace and elegance to its wearer.
