Origin  
Provenance: Thailand

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Thailand.

Enhancement

Standard: Heat      Additional: Clarity

Stability Index: Color Stability: Excellent      Degree: Insignificant  
Type: Heating Residues  
Stability Index: Excellent to Very Good

Comments: Rubies are commonly heated to modify their color and appearance. Heating residues are deposited along healed fissures during the heating process.
