COLLEZIONE MARE

From sea to sky.

Salavetti proudly presents the Mare collection, a tribute to the boundless beauty of the sea and sky. At its heart lies aquamarine, Latin for "water of the sea," with a crisp, clean blue hue—an unmistakable hallmark of superior quality.

This collection begins with an extraordinary discovery in Tanambé, Madagascar, a coastal paradise renowned for its crystal-clear waters. More than 8,000 rough carats of unheated, natural aquamarine were sourced, each gem meticulously handpicked for its unparalleled clarity and serene blue tone.

From mine to masterpiece, Salavetti directs every step of the journey, ensuring that only untreated, entirely natural gems grace the Mare collection. The time-honored craftsmanship and innovative design transform these rare stones into breathtaking jewelry.

Celebrating nature's unmatched artistry, the Mare collection embodies a connection to the Earth's natural majesty. Each piece conveys the calm of the sea and the infinite promise of the sky, bringing peace and elegance to its wearer.
