American Gemological Laboratories™

America's first and most highly respected origin lab.

Founded in 1977,

AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

AGL has the distinction of being the first laboratory in the United States to issue Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification-and-classification, gemstone treatments and provenance determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.

Identification

Mineral Type: Natural Tourmaline

Variety:

Color Description: Pink

Carat Weight: 77.93 cts

Shape: Cushion

Measurements: 25.65 x 25.28 x 18.07 mm

Cutting Style: Mixed Cut

Comments: The unusual combination of size, absence of treatment and quality factors present in this material contributes favorably to its rarity and desirability.

Identification
