Identification

American Gemological Laboratories™

America's first and most highly respected origin lab.

Founded in 1977,

AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

AGL has the distinction of being the first laboratory in the United States to issue Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification-and-classification, gemstone treatments and provenance determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.

Origin

Origin

Provenance: Burma (Myanmar)

Comments: Based on available geological information, it is the opinion of the Laboratory that the origin of this material would be classified as Burma (Myanmar).

Enhancement

Enhancement

Standard: Heat enhancement: None

Additional: None

Comments: Non-heated rubies are scarce. Rubies are commonly heated to modify their color and appearance.
